R_2 and R_3 , taken together, form with the adjacent aromatic ring a 5- or 6-membered ring, optionally substituted with methyl groups and/or optionally interrupted by an oxygen or sulfur atom.

37. (New) A compound according to Claim 33, wherein Ar is a radical of formula (d).

38. (New) A pharmaceutical composition comprising at least one compound according to Claim 32 in a pharmaceutically acceptable support.

39. (New) The composition of Claim 38, wherein the concentration of the at least one compound is between 0.002% and 5% by weight of the pharmaceutical composition.

40. (New) A cosmetic composition comprising at least one compound according to Claim 33 in a cosmetically acceptable support.

41. (New) The composition of Claim 40, wherein the concentration of the at least one compound is between 0.002% and 5% by weight of the cosmetic composition.

42. (New) The composition of Claim 40, wherein the composition is suitable for body or hair hygiene.

43. (New) A compound according to Claim 33, wherein R₂ and R₃, taken together form with the adjacent aromatic ring a 6-membered ring substituted with methyl groups and being interrupted by an oxygen or sulfur atom.
